EXPERIENCE

PT Global Intermedia Nusantara | Web Developer *Yogyakarta* | 04/2023-09/2023

- Developed a Student Data Management System using Laravel 9, implementing full CRUD functionalities (Create, Read, Update, Delete) for seamless record management.
- Designed a PKL Registration Website to provide an intuitive user interface, ensuring alignment with workflow requirements and enhancing usability evaluation skills.
- Contributed to Dukcapil Sleman Data Input, entering over 50,000 records for birth and death certificates with precision and efficiency.
- Built a Corporate Social Responsibility (CSR) Website, showcasing companies' accountability initiatives and community development programs.

INTEREST

Passionate about Taekwondo for its focus on discipline, physical endurance, and self-defense techniques. I value the mental and physical challenges it brings, fostering resilience, respect, and perseverance both on and off the mat. Taekwondo has taught me the importance of precision, control, and commitment, principles that I apply to my personal and professional life.
